In 1908 the state forester published a work entitled "Handbook on forest mensuration of the white pine in Massachusetts". A 2d edition was published in 1911. Since the original investigation of the white pine was made, the department has also collected similar data on other species, and the Department of forestry at Harvard university has in its research work published a large amount of information along similar lines. This data has been included with the original material and the task of compiling and editing the present publication has been given to Mr. H. O. Cook, chief forester, the author of the original bulletin on white pine mensuration. cf. Intro., p. 151

W65 v. 17 Gray, Asa, 1810-1888, ed. ... Botany ... 1874. (Card 2)  
The first part, Cryptogamia, was printed in or before 1862. Of these  
parts, Musci, by W. S. Sullivan, was published in a separate edition in  
1859, with letterpress in folio to match the plates. Extra copies of the  
other three parts (Lichenes, Algae, and Fungi), and the plates of Torrey's  
Phanerogamia were secured by Asa Gray and distributed among botanists.  
When the volume was finally published in 1874, he also secured copies of  
Torrey's Phanerogamia, and had the four parts, with the folio plates folded,  
bound in one volume, with title: U. S. Exploring expedition botany.  
1. Lower Cryptogamia. 2. Phanerogamia of the Pacific coast of North  
America. It is an imperial 4to of 420 pages and 29 plates. cf. Amer. Jour.  
sci. 3d ser. viii (1874) p. 321-322.  
The contents of this volume (17) are therefore to be found in various  
forms.

Hawaii. Agricultural experiment station, Honolulu.

Established in 1900. Until 1929 the station was under the direction of the U.S. Dept. of agricul-  
ture; from 1929 to June 30, 1938 the federal and  
territorial stations operated under a single  
director. The merging of these stations in pro-  
gress since 1929 was completed June 30, 1938, and  
from July 1, 1938 the station is entirely under  
the direction of the University of Hawaii. - (of.  
Report of the chief of the Office of experiment  
stations, 1938, p. 2).
